

FurryTales[™]
MOBILE VETERINARY CARE

August Newsletter 2009

Good news story.

'Lucky' a kelpie x was picked up trying to cross Drakeford Drive in peak hour traffic by Dr Fiona. Poor 'Lucky' as she was subsequently dubbed, had obviously been very poorly treated as she had abuse wounds, behavioural problems & was very malnourished. In the 6 weeks she lived with Dr Fiona she gained 7kg & her physical and emotional wounds started healing. Thankfully for Lucky her owners never tried to reclaim her & she was eventually free to go to a new home. 'Lucky' flew to Brisbane last week and is now enjoying lots of love at her new home.

RSPCA Cup Cake Day

To help 'Lucky' and dogs like her Furrytales would like to support this years RSPCA Cup Cake Day that is raising funds for abused animals. We will be having a little stall at Lake Burley Griffin on Saturday the 15th at 10:30 am for 2 hours. If anyone is interested in baking cupcakes for the event, manning the stall or visiting us to eat our yummy cakes please get in contact with Dr Fiona for more information.

Customer Orders

For people who order regular medications or pet food, please note that our normal supplier order day is Thursday, with delivery on Friday. If you could please get orders in Mon to Wed, so we can get them out to you before you run out! Thanks.

© Marcus Fillinger

Nepal Trip

On the same theme, Dr Fiona & Marcus Fillinger, one of our Furrytales clients & a professional photographer will be traveling to Nepal in late October for 10 days to volunteer with Vets Beyond Borders. Dr Fiona will be performing surgery on injured street dogs & helping with the VBB rabies vaccination & education programs. We would like to take a donation of orthopedic equipment with us, as this is a need identified by VBB, so if anyone would like to make a donation please let us know & we can give you details. Also a big thanks to Annabel & Marguerite who have kindly donated their unneeded pain relief medication.. I am sure many dogs in Nepal will be very grateful to you. Marcus is planning an exhibition of the images he takes when we return to improve awareness of the terrible plight of animals in 3rd world countries.
